

CP3: Become a Partner

Step 1:

Visit www.preparedchicago.com. Click on "Become a Partner" and register to obtain a CLEARpath login name and password.

*If you were invited to participate by a member of your building's management team, provide this individual with your CLEARpath login name. Once this individual has confirmed that you have been added as a CP3 user, you can return to www.preparedchicago.com and log in. You DO NOT need to complete step 2.

Step 2:

Log in and claim your facility. During this process there are two options when claiming a facility - building management or tenant. Once you have claimed a facility your request will be vetted before you are granted access to the CP3 portal.

Public/Private
Partnership

"...for a safer more secure Chicago"

Rahm Emanuel
Mayor
City of Chicago

Eddie T. Johnson
Superintendent
Chicago Police Department

Mitigating all hazards through partnership for a safer and more secure Chicago

After listening to your needs, the CP3 consortium of city agencies developed a portal to centralize how information is gathered and disseminated. **The portal serves as a single site to submit information** for the Chicago Office of Emergency Management

Terrorism will forever be a threat for which we must be prepared. Responding to any incident that places our residents at risk requires the highest level of preparedness. Chicago's Public and Private Partnership (CP3) initiative is a result of the City of Chicago's desire to strengthen partnerships with the private sector.

By strengthening partnerships with the private sector, the CP3 Partnership will serve to centralize the City's efforts to better prepare First Responders for all potential hazards. Through enhanced information sharing and more timely communication — together we can create a safer and more secure Chicago.

Through enhanced information sharing and more timely communication—together we can create a safer and more secure Chicago.

and Communications, the Chicago Fire Department, the Chicago Department of Public Health and the Chicago Police Department.

Information that businesses provide will assist First Responders in addressing an incident and will assist emergency management executives in the development of citywide response plans. Information can be updated and submitted in a timely manner, providing instantaneous access to those who need this information in critical situations.

In addition, as a CP3 partner, your access to CP3's array of security documents provides an additional resource for your company's critical security and emergency planning. All users are additionally included in the CP3 Mass Alert System which will provide timely situational awareness and briefs on subject matters specific to your area of interest and responsibility.

Whether you are a member of a facility's management team, a business owner or tenant you too can play a role by becoming a CP3 partner. Becoming a member is as simple as completing the registration application. In order to maintain the security of this portal, all users undergo a vetting process.
